label	description	Recommendations / Comments	Acceptable Values	Counts in Cardinal as of January 2022 (value then count)	NC Cardinal
Use Active Date for Age Protection	When calculating age protection rules use the active date instead of the creation date.		True/False		TRUE
Checkout Fills Related Hold	When a patron checks out an item and they have no holds that directly target the item, the system will attempt to find a hold for the patron that could be fulfilled by the checked out item and fulfills it		True/False		TRUE
Default hold shelf expire interval	The amount of time an item will be held on the shelf before the hold expires. For example: "2 weeks" or "5 days"		interval of time: # of days		7 days
Block Renewal of Items Needed for Holds	When an item could fulfill a hold, do not allow the current patron to renew		True/False		TRUE
Block hold request if hold recipient privileges have expired	Circulation: Block hold request if hold recipient privileges have expired	If True: Patron will not be able to place a hold if their privileges have expired	True/False	False (22)True (16)	FALSE
Behind Desk Pickup Supported	If a branch supports both a public holds shelf and behind-the-desk pickups, set this value to true. This gives the patron the option to enable behind-the-desk pickups for their holds		True/False	False (24)True (3)	FALSE
Hold Shelf Status Delay	The purpose is to provide an interval of time after an item goes into the on-holds-shelf status before it appears to patrons that it is actually on the holds shelf. This gives staff time to process the item before it shows as ready-for-pickup. Examples: "5 days", "1 hour"		interval of time: # of hours or days	1 hour (14)3 hours (5)30 r	3 hours
Canceled holds/requests display age	Show all canceled entries in patron holds and patron acquisition requests interfaces that were canceled within this amount of time		interval of time: # of hours or days	6 months (13)30 days (4)6	1 year
Canceled holds/requests display count	How many canceled entries to show in patron holds and patron acquisition requests interfaces		number	25 (12)10 (9)5 (4)20 (4)10	
Reset request time on un-cancel	When a hold is uncanceled, reset the request time to push it to the end of the queue	If True: Holds that were un-cancelled or had gone unclaimed on the hold shelf will go to the end of the line when activated again	True/False	True (33)False (4)	TRUE
Expire Alert Interval	Amount of time before a hold expires at which point the patron should be alerted. Examples: "5 days", "1 hour"	This should be set if the Expire Interval setting is set (below).	interval of time: # of hours or days	3 days (21)7 days (4)2 day	3 days

Expire Interval	Amount of time after a hold is placed before the hold expires. Example "100 days"	Take into account that a patron may place a hold on an On Order item that has not yet been received, after which it may be protected by 6 month age hold protection. How long do you want the hold to stay active before it is cancelled?	interval of time: # of hours or days	180 days (7)365 days (6)9	365 days
Suppress Hold Transits	If set to a non-empty value, Hold Transits will be suppressed				
Suppress Non-Hold	If set to a non-empty value, Non-Hold Transits will be				
Target copies for a hold	If this setting is true at a given org unit or one of its	If True this will attempt to target local		True (205)
