

label	description	Recommendations / Comments	Acceptable Values	Counts in Cardinal as of January 2022 (value then count)	NC Cardinal
Item Print Label - Call Number Wrap Filter Height	This setting is used to set the default height (in number of lines) to use for call number wrapping in the left print label.	If you print directly from Evergreen, you should choose a setting.		4 (1)	
Item Print Label - Call Number Wrap Filter Width	This setting is used to set the default width (in number of characters) to use for call number wrapping in the left print label.			15 (1)	
Item Print Label - Height for Pocket Label	Set the default height for the item print Pocket Label. Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"				
Item Print Label - Height for Spine Label	Set the default height for the item print Spine Label. Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"			1in (1)	
Item Print Label - Inline CSS	This setting allows you to inject arbitrary CSS into the item print label template. For example, ".printlabel { text-transform: uppercase; }"			.printlabel {text-align: left; } (1)	
Item Print Label - Left Margin for Pocket Label	Set the default left margin for the item print Pocket Label (or in other words, the desired space between the two labels). Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"				
Item Print Label - Left Margin for Spine Label	Set the default left margin for the item print Spine Label. Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"			0.05in (1)	
Item Print Label - Width for Pocket Label	Set the default width for the item print Pocket Label. Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"				
Item Print Label - Width for Spine Label	Set the default width for the item print Spine Label. Please include a unit of measurement that is valid CSS. For example, "1in" or "2.5cm"			1.625in (1)	
Item Print Label Font Family	Set the preferred font family for item print labels. You can specify a list of CSS fonts, separated by commas, in order of preference; the system will use the first font it finds with a matching name. For example, "Arial, Helvetica, serif"			Calibri (1)	
Item Print Label Font Size	Set the default font size for item print labels. Please include a unit of measurement that is valid CSS. For example, "12pt" or "16px" or "1em"			12pt (1)	
Item Print Label Font Weight	Set the default font weight for item print labels. Please use the CSS specification for values for font-weight. For example, "normal", "bold", "bolder", or "lighter"			bold (1)	

Spine and pocket label font family	Set the preferred font family for spine and pocket labels. You can specify a list of fonts, separated by commas, in order of preference; the system will use the first font it finds with a matching name. For example, "Arial, Helvetica, serif".			Arial (5)monospace	monospace
Spine and pocket label font size	Set the default font size for spine and pocket labels			10 (1)12 (1)12pt (1)	10pt
Spine and pocket label font weight	Set the preferred font weight for spine and pocket labels. You can specify "normal", "bold", "bolder", or "lighter".			bold (3)normal (1)	normal
Spine label left margin	Set the left margin for spine labels in number of characters.			0 (3)0 (1)	0
Spine label line width	Set the default line width for spine labels in number of characters. This specifies the boundary at which lines must be wrapped.			0 (1)1.625in (1)8 (1)	8
Spine label maximum lines	Set the default maximum number of lines for spine labels.			4 (1)9 (1)5 (1)	9
