From Wikipedia, the free encyclopedia

Cardinal (Bird)

Cardinals, which make up the family Cardinalidae, are passerine birds found in North and South America. They are also known as cardinal-grosbeaks and cardinal-buntings. The South American cardinals in the genus "Paroaria" are placed in another family, the Thraupidae (previously placed in Emberizidae).

Projects

Staff Reception and Impact

- Circ reports - reporting by shelving location instead of circ mod
- Summer - busy for libraries, so not a great time for big projects
- “It seems to have gone smoothly and DIDN’T impact any of our workflows. I think the background work that was done to make sure the old mods mapped correctly to the new mods was (must have been) well done to account for the relatively painless transition.”

Projects

AV and E-resource Deduplication

- Carefully analyze data
- Establish matching criteria
- Isolate the audio-visual records and electronic records from print and each other
- TEST; re-evaluate criteria
- Run on production

Audio Visual Deduplication

Typical merge set:

material identifier - 020 \$a\$z normalized, confirmed for validity and converted to 13 digits

search record format (null not allowed)

large print indicator (null is fine)

normalized author (null not allowed, drawn from 100\$a and going in descending preference to other responsibility fields)

normalized title (null not allowed, drawn from 245\$a and going in descending preference to other title fields)

Audio Visual Deduplication

If bib has format then use it
if not then use RDA 336/337/338; if conflict, go with majority of circ mods on bib
if no either then use majority circ mods and if neither exists use the most recent circ mod item

Fall 2018: Item Cataloging and Bib Cataloging workshops with Dr. Sonia Archer-Capuzzo

Staff who need cataloging permissions continue taking cataloging assessments.

January 2019: All staff who need cataloging permissions should have completed assessments. The assessments are open book and can be repeated until a passing score is achieved. Staff who add or delete item and/or volume records will need to pass the Item Cataloging assessment. Anyone creating, importing, editing, or deleting bibliographic records will need to pass both the Item Cataloging assessment and the Bibliographic Cataloging assessment.

Item and Bibliographic Cataloging Training:
delivered by Dr. Sonia Archer-Capuzzo

- 94% rated training as very high/high quality
- 99% rated instructor as very responsive to questions

Projects

CBP Training Survey

What was the best thing you learned today?

"Probably the most important thing was to refer to the Cataloging Best Practices when in doubt and to report oddities in Evergreen to the bibliographic catalogers."

"We're all getting on the same page with some good basic training for identifying good catalog records in Evergreen"

Projects

CBP Training Survey

Additional comments:

"Presenter really gave us a helpful program with lots of in depth insight - would love to take another class with her"

"Feeling good about it all now."

"Workshop exceeded all expectations. Been out of library school since 2000 and this was a wonderful refresher"

"Love the presenter!!!"

Cataloging Assessments

- All staff who wish to retain cataloging permissions will need to pass assessments by January 2019. This includes staff who only catalog from time to time, such as adding or deleting items.
- Fall training classes are last in-person opportunity this fiscal year
- Online resources always available – CBP knowledge book, training slides, and videos
- Each library director needs to ensure staff who catalog are trained and pass assessments by January

Cataloging Committee

Staff Login Accounts

- Full compliance goal – January 2019
- Each system should have a Staff Login Access Manager
- Each system should be assigning Individual logins for staff using cataloging and/or admin permission groups
- Generic cataloger and admin login accounts permanently deleted by January 2019

Authorities Working Group

Authorities Working Group

Purpose:

This working group will discuss and recommend authority procedures and policies, undertake work on authority records, make recommendations for when to outsource authority work, and provide recommendations for authority training to NC Cardinal catalogers.

Authorities Working Group

Current Membership

- ➡ Sharon Arnette (Henderson)
- ➡ Mary Atkinson (Harnett)
- ➡ Nicole deBruijn (Appalachian Regional)
- ➡ Meghan Blackburn (Cleveland)
- ➡ Christina Martin (Mauney)
- ➡ Jennifer Weston (Davidson)

Authorities Working Group

ROADMAP

Phase One (Jan 2018 - Jun 2018)

- Document Authorities Best Practices for using preferred vocabularies for Subject Headings and Genre/Form terms

- Submit Recommendations for Authorities for Cataloger Training

- Prepare RFP specifications for database cleanup & authority processing

Authorities Working Group

ROADMAP

Phase Two (July 2018 – Sept 2018)

- Assist in choosing vendor for backfile database cleanup & authority processing
- Complete testing of vendor files & provide QA for database updates
- Create authorities data project summary report and update Best Practices

Authorities Working Group

ROADMAP

Phase Three (Sept 2018 – Nov 2018)

- Test authority control in development database prior to scheduled 3.1 upgrade
- Identify & document changes in authorities workflow in 3.1

Authorities Working Group

ROADMAP

Phase Four (Dec 2018 – Mar 2019)

- Update Authorities Best Practices
- Implement formal authorities maintenance plan with shared responsibilities
- Devise Authorities Training Plan for bib catalogers

Patron Permission Groups

Patron Permission Groups

Why?

- Difficult for staff to select from large list of categories
- Easy to assign groups that your system doesn't have policies for
- Inconsistent category use can result in unexpected behavior if a patron travels to different system
- Variety of overlapping groups is more difficult to administer

Patron Permission Groups

Functional Analysis

- How does each system uses the existing patron permission groups and user categories?
- What circ or hold rules use the existing permission groups?
- Are the permission groups used for other services like wifi access, electronic resources, PC Reservations, etc.?

Patron Permission Groups

Functional Analysis

- How does each system use the existing patron permission groups and user categories?
- What circ or hold rules use the existing permission groups?
- Are the permission groups used for other services like wifi access, electronic resources, PC Reservations, etc.?

Strategies for Simplification

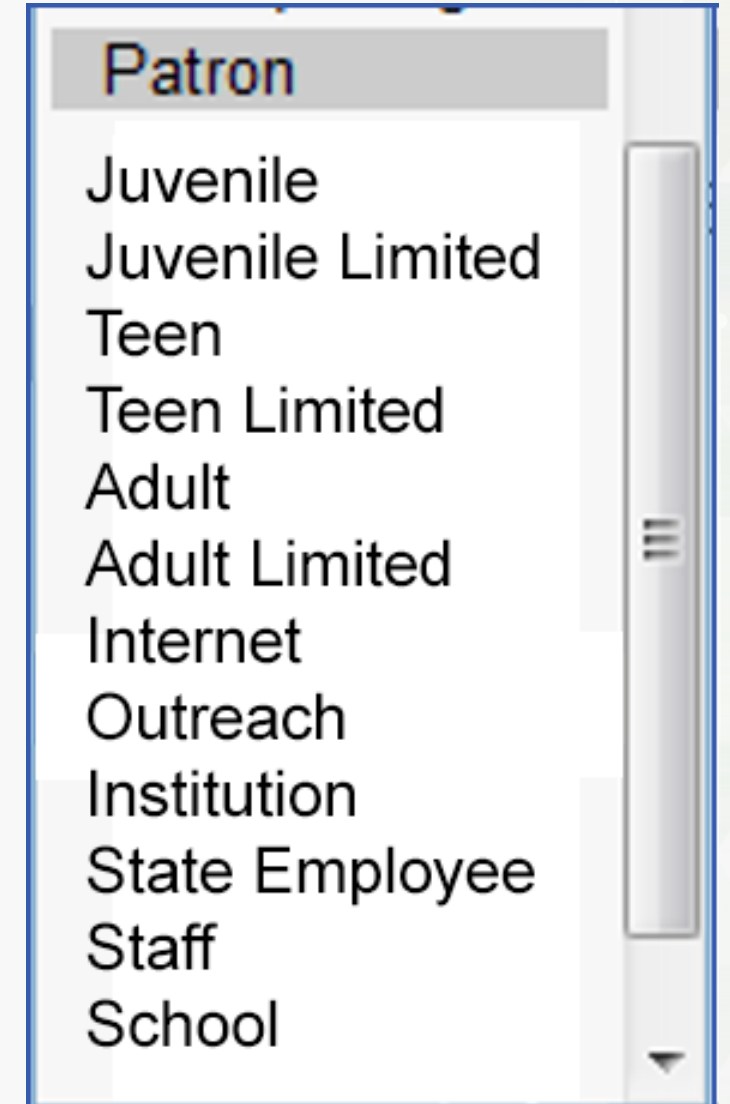

- Separate account behavior from user category to allow different systems to use permission groups differently
- Create Stat Cats if the Permission Group category is for informational purposes rather than circulation or hold rules
- Define circulation rules based on patron age when appropriate

Patron Permission Groups

Our Analysis

Age Groups	Limited Functionality
Juvenile	Juvenile Limited
Teen	Teen Limited
Adult	Adult Limited

Accounts Defined By Specific User Relationship or Function	
School	Institution
Outreach	State Employee
Staff	Internet

Patron Permission Groups

Let's talk about these changes category by category and vote on how to make changes

Patron Permission Groups

School

Old Permission Group	New Permission Group	Notes
School	School	No change

Staff

Old Permission Group	New Permission Group	Notes
Staff	Staff	No change. These accounts are intended for individual staff members that need to check out books for work. You may also want to consider using an Institution account if the account is for something like children's reading time. These accounts are not for logging into Evergreen's staff client.

State Employee

Old Permission Group	New Permission Group	Notes
State Employee	State Employee	No change

Patron Permission Groups

Internet

Old Permission Group	New Permission Group	Notes
Internet	Internet	No change
Temporary	Internet	Largest user of this type used it for Internet only accounts. Otherwise we're proposing that accounts could be changed to [Age Group Name] Limited

Patron Permission Groups

Outreach

Old Permission Group	New Permission Group	Notes
Outreach	Outreach	No change. We're suggesting more usage of stat classes to define the variety of institutions that these accounts are for.
Preschool	Outreach	Primarily used by only one system which has no rules for Outreach and no Outreach patrons, so Outreach circulation rules could be created to match their current Preschool rules

Patron Permission Groups

Institution

Old Permission Group	New Permission Group	Notes
Institution	Institution	No change. We're suggesting more usage of stat classes to define the variety of institutions that these accounts are for.
Interlibrary Loan - 3 Yr	Institution	Only one system has rules for both Institution and Interlibrary Loan - 3 Yr. so we'd like to collapse these into simply Institution and add an Interlibrary Loan stat cat
Internal - 3 Yr	Institution	Only one system has rules for both Institution and Internal - 3 Yr. so we'd like to collapse these into simply Institution and add an Internal stat cat. Alternatively, if this is for a staff member, the permission group Staff could be used.

Patron Permission Groups

Adult & Adult Limited

Old Permission Group	New Permission Group	Notes
Adult - 3 Yr	Adult	
Adult - 1 Yr	Adult	
Senior - 1 Yr	Adult	Only 1 system uses this for a circulation rule. Rule could be recreated by adding policy for Adult users aged 61-105
Senior Citizen - 3 Yr	Adult	Only 3 systems use this for a circulation rule. Rule could be recreated by adding policy for Adult users aged 61-105
Adult Limited	Adult Limited	
Adult newuser	Adult Limited	Only one system has a policy that uses this permission group, but no corresponding policy for Adult Limited, so current functionality could be maintained by combining these two groups

Patron Permission Groups

Discontinued Permission Groups

Old Permission Group	New Permission Group	Notes
Limited		Users would be changed to [Age Group Name] Limited accounts, or could be changed to Internet accounts if the accounts were only for internet access
College	Adult	Convert to stat class. Only one system has circulation or hold rules for this group, but they have no users assigned to this group.
General		Primarily used by one system which has agreed to age based permission group categories. Otherwise we'd change the accounts to [Age Group Name] permission group based on the date of birth of the user
Missing		Should be an item status, not an account type
PayPlan		Only one system has circulation rules based on this permission group and we believe the functionality desired could be facilitated through other means
